SUMMARY OF THE REASONS FOR DECISION:

The computer printout entitled *!addy1.txt*, also known as *!addy1.txt text file*, is classified as:
Objectionable.

This is because it promotes and supports the exploitation of children for sexual purposes. *!addy1.txt* is a short, sexually explicit story that concerns a father having a sexual relationship with his nine year old daughter which includes vaginal intercourse. A second daughter discovers the two having sex and wants to have sex too.

The children described in this story are attributed with adult attitudes with regard to sexual activity. The language used to describe the sexual activity and body parts such as genitals is colloquial, offensive, and salacious.

This publication, by its use of child characters, and the sexual language and activities attributed to them, seeks to legitimise their engagement in sexual activity with adults. The publication also seeks to promote such activity as socially normal and acceptable.

The exploitation of children is a section 3(2) criteria of the Films, Videos, and Publications Classification Act 1993. *!addy1.txt* promotes and supports this s3(2) criteria. Section 3(2) criteria are inconsistent with and override s14 of the New Zealand Bill of Rights Act 1990 (NZBR Act) which allows for "the freedom to seek, receive, and impart information and opinions of any kind in any form." Therefore s14 of the NZBR Act cannot apply to this computer printout.
